About the **TAREK CEMENT**

Tarek cement is a well-established cement manufacturer catering for contractors, architects, engineers, retailers and home owners. Our factory is specialized in producing cement products including ordinary and sulfate resistance cement and continuously working on developing new cement products. Tarek cement is the cement manufacturing division of Fouad Alghanim and Sons Group of Companies.

As part of our commitment to produce the best quality cement to cater for our clients' need, the operations of the factory are done by one of the most eminent Operation & Maintenance service providers in the world of cement; namely FLSmidth.

Vision

To be the most sustainable and competitive regional company in cement industry offering the best quality & service and reliable cement products & Technology.

Mission

- Building infrastructure that helps to protect and enrich people's lives.
- To be recognized as a reliable cement producer and supplier; committed to exceed the expectations of our stakeholders through high quality products and services, an efficient multi-skilled team focused on our core business and supported by the latest technologies.
